

## Accountancy Solutions

**PRACTICAL**

**PRO-ACTIVE**

**FLEXIBLE**

RMD Accountancy Solutions Ltd is an accountancy practice based in Wrexham, North Wales which has been established since 2001.

We provide a full range of accountancy services to include Year End Accounts, Book Keeping, PAYE Payroll processing and Construction Industry Scheme (CIS) payroll processing / administration.

We work with a range of commercial sectors across the UK, at different stages of growth and provide our clients with practical support, advice and guidance throughout the year – ensuring all statutory obligations are met in good time and relieving the burden of keeping company financial records.

We tailor all our services to meet our clients' requirements and work in close partnership with them to help meet their business goals and objectives both in the short and long term.

## How the accountancy service works in practice ...

RMD Accountancy Solutions Ltd delivers practical and pro-active assistance to all our clients by providing accountancy support and advice throughout the year. We believe that accountancy is about more than producing a set of accounts at the financial year end.

We believe through regular professional contact, review and feedback with our clients we gain a better understanding of their businesses, their services/products and the direction they are heading; which enables us to tailor our advice and recommendations appropriately.

By providing accurate accounting reports, holding review meetings and giving constructive feedback, we give clients a sound basis from which to make informed decisions concerning their business.

Our support throughout the year can be utilised to assist in matters such as raising finance, completing full business reviews, compiling business plans and completing grant applications.
